

## Let ODKF help YOU!

Our goal is to help keep kids safe and healthy in your local community! The Foundation is concentrating on 4 areas to do just that... all year round! See us at [www.odkf.org](http://www.odkf.org)

### The Foundation's Safe & Healthy Kids Committee is Here for You!

Clubs can partner with the Foundation's SHK Committee to get one or more of these potential projects off the ground and into your neighborhood!

The Foundation has done a lot of the research into organizing the projects. This work will help provide your club with some guidelines that give you the basics of launching one of these projects in your Kiwanis community!

### Four Seasons/Four projects

The four projects we are focusing on include:

- 1) Spring - Bike Rodeo/Bike Helmets
- 2) Summer - Water Safety/Sunburn Prevention
- 3) Fall - Fire Safety/Smoke Detectors
- 4) Winter - Internet Safety

The Foundation can assist with the purchase of supplies at a reduced cost, or even help your club with promotional items and ideas. This will help keep the costs low for your club giving you more bang for your buck! What a great partnership!

### Kiwanis Bike Safety

In the Spring, May is Bike Safety Month! We will have a guide that lays out the steps needed to put together a successful bike rodeo! Tried and proven, the guide provides information on things like picking a venue, how to mark out a course, how to grade the riders, and other items needed to make it a fun event!

# “Helping You Keep Kids Safe & Healthy.”

Click on “Safe and Healthy Kids” at [www.ODKF.org](http://www.ODKF.org) for more info

The Foundation can help you purchase helmets at reduced cost! Orders must be turned in by May.

### Safe Summer Fun

In summer, June is Kiwanis Safe Swimming Month! Sunburn is a major concern as it increases the risk of skin cancer. Infants and young children are especially sensitive to the sun's harmful rays. Sunscreen shirts provide added support that will help protect them from the sun.

This project requires little effort. If your club participates, the Foundation can order the Kiwanis branded sunscreen shirts at a reduced cost. The idea is to hand out these shirts at your city pool, or any summer event you may already have planned.

This is an easy project that can be completed within a short period of time with few volunteers.

### Fall Fire Safety

In the fall, people turn on their furnaces for the first time and maybe start their fireplace or wood burning stoves. This could raise the risk of potential home fires. Kiwanis can play a pivotal
