

role in reminding people to change out batteries in smoke detectors and other fire safety issues.

The Foundation will provide information on how to partner with your local fire department or Red Cross in their smoke detector campaign.

Clubs can also work independently by promoting fire safety with the use of smoke detectors or simply by providing batteries! The Foundation will be a great resource on how to obtain fire safety handouts and/or batteries. This easy to execute initiative can be used by clubs small and large.

Internet Safety

In winter, kids are inside more than outside. Kids are exposed to smartphones and computers at younger ages. This amount of “screen time” is increasing at a fast pace.

ODKF wants to help you provide information to your communities’ parents and children, to avoid hazards in the ever changing digital landscape. In the early part of the year, the Foundation will host webinars covering topics that will provide information about what dangers could await you and the children of your community.

Go Kiwanis!

By focusing on any of these four projects, the Foundation can help your local Kiwanis Club by providing organizational materials and purchasing items at a reduced cost. Additionally, the Foundation can help provide promotional material and publicity for your efforts. What a great way to coordinate efforts with our Kiwanis Clubs across Ohio! Just another way Kiwanis is making a difference to children within Ohio!

Grants Available

The Foundation is working to obtain the best price for the items YOU need to run a successful event! The Foundation also has a matching grants program that your club can use to increase the impact of your project for any of the safe seasons!
